2.5 RISK AND COMPLIANCE

GOVERNANCE

The Management Board is responsible for:

- determining the Company's risk profile and policy, which are designed to achieve the Company's objectives, to assess and manage the Company's risks and to ensure that sound internal risk management and control systems are in place, and
- ensuring that the entire SBM Offshore organization operates within its clearly defined Compliance Program.

The Management Board monitors the operation of the Compliance Program and the internal risk management and control systems and performs an annual systematic assessment of their design and effectiveness. The results are discussed with the Supervisory Board. This monitoring covers all material control measures relating to strategic, operational, financial, compliance and reporting risks. Among other considerations, attention is given to observed weaknesses, instances of misconduct and irregularities and indications from whistle blowers.

MANAGEMENT APPROACH

The Group General Counsel and Chief Compliance Officer has managerial responsibility for compliance, insurance and legal matters. The Compliance Function, headed by the

Group Compliance Manager, has a leadership role in proactively advising the Management Board and Management on acting with integrity and in a compliant manner, both from a strategic and an operational perspective.

The Compliance Function comprises a globally diverse team of experienced compliance professionals located within the Company's most prominent locations worldwide. Business leadership has accountability and responsibility to manage compliance and integrity risks within their fields of management control.

2.5.1 DESIGN AND OPERATION OF THE RISK MANAGEMENT AND INTERNAL CONTROL ENVIRONMENT

Group Risk and Control empowers the business to identify and manage risks and opportunities effectively, ensuring alignment with the Company's Risk Appetite (see section 1.4.1) in order for the Company to achieve its strategic goals and objectives. The Risk Assurance Committee (RAC) brings together the heads of assurance functions and reviews the significant risks faced by the Company and its relevant control measures. It also oversees the integrated risk management approach.

2 GOVERNANCE

DESIGN AND OPERATION OF THE RISK MANAGEMENT AND INTERNAL CONTROL ENVIRONMENT

The Management Board reviewed and assessed its Internal Risk Management & Control System framework and discussed it with the Supervisory Board. This is performed against five related components which are derived from COSO's framework 'Enterprise Risk Management – Integrating with Strategy and Performance'*. Its relevance to SBM Offshore is explained in Key features, Achievement in 2024, Maturity assessment and the Company's Future ambitions.
