#### REVOLVING CREDIT FACILITY (RCF)

The Company has available short-term credit lines and borrowing facilities resulting from the undrawn part of the RCF.

As announced on April 10, 2025, the Company has signed a US\$1.1 billion unsecured RCF with a group of 13 international banks to refinance its existing US\$1.0 billion RCF, which was due to expire in February 2026. The new RCF has a tenor of five years and two one-year extension options as well as an uncommitted option to increase the facility by up to US\$500 million.

When needed, the RCF allows the Company to finance general corporate purposes and working capital needs during the construction of floating production solutions. Eligible green projects can be funded under a specific green tranche of US\$100 million.

The pricing of the RCF is currently based on SOFR. The margin is adjusted in accordance with the applicable net leverage ratio, ranging from a minimum level of 0.70% p.a. (0.60% for the green tranche) to a maximum of 1.80% p.a. (1.70% for the green tranche). As of December 31, 2025, the Company has drawn US\$100 million under the green tranche of RCF.

#### REVOLVING CREDIT FACILITY FOR MPF HULL FINANCING

As announced on December 15, 2023, the Company secured a US\$210 million revolving credit facility for the financing of the construction of Fast4Ward® Multi-Purpose Floater (MPF) hulls. The pricing was based on SOFR and a margin, which was 1.90% per annum for the first 12 months and thereafter 2.10% per annum. This revolving credit facility was fully repaid and cancelled in April 2025.

#### SUPPLY CHAIN FINANCING

Starting April 2023, the Company secured short-term funds in the form of an uncommitted Supply Chain Financing (SCF) program to optimize working capital. The first SCF facility was signed in April 2023 for a notional amount of EUR50 million (or US\$ equivalent). The interest is based on a reference rate, depending on the tenor and currency (such as Term SOFR for US\$) of the individual utilizations. The margin is adjusted in accordance with the currency of the utilization, 0.85% p.a. for payables denominated in EUR and 0.95% p.a. in US\$.

In 2024, the Company expanded its uncommitted SCF program to a total of US\$260 million with margins ranging from 1.35% to 2.75%.

The Company has utilized the SCF facilities during the year with no outstanding balance as of December 31, 2025.

#### CIDADE DE ANCHIETA LOAN
