(refer to 4.3.16 Other Financial Assets), partially offset by the unwinding of interest accrued on the provision for *FPSO Cidade de Anchieta.*

Warranty

For most Turnkey sales, the Company gives warranties to its clients. Under the terms of the contracts, the Company undertakes to make good, by repair or replacement, defective items that become apparent within an agreed period, starting from the final acceptance by the client.

The decrease in the warranty provision resulted from the regular consumption of existing warranty provisions over the applicable warranty period, the utilization of existing warranty claims from clients partially offset by new provisions accrued on projects under construction over the period or still under warranty period and new warranty claims from clients.

As of December 31, 2025, the Company expects US$22 million of the recognized warranty provision to be released within 12 months.

Other

Other provisions mainly relate to planned local content penalty on construction projects and include claims, regulatory fines related to operations, and onerous contracts.

The reduction in Other provisions mainly relates to the Company's progress in settling planned local content penalty obligations in relation to *FPSO Sepetiba*, *FPSO Almirante Tamandaré* and *FPSO Alexandre de Gusmão*.
