

2025 ANNUAL REPORT

SBM OFFSHORE

TRUE.
BLUE.
TRANSITION.

As per December 31, 2025, all the debt associated with operating FPSOs is non-recourse.

The Company does not maintain a target net leverage ratio and continuously monitors prepayment and refinancing opportunities in its project finance facilities to optimize its capital structure. As such, from time to time, it may decide to refinance existing facilities based on the project specific circumstances and financial market conditions.

The gearing ratios at December 31, 2025, and December 31, 2024, were as follows:

Capital risk management

	2025	2024
Total borrowings and lease liabilities	9,155	8,943
Less: net cash and cash equivalents	1,086	806
Net debt	**8,068**	**8,137**
Total equity	6,482	5,844
Total capital	**14,550**	**13,981**
Gearing ratio	55.5%	58.2%

Climate related risks

The Company has adopted two climate change scenarios to future-proof current strategy and take appropriate action. The scenarios are based on the latest global climate model data (CMIP6) that inform the Intergovernmental Panel on Climate Change's Sixth Assessment Reports (IPCC AR6) as explained in section 3.2.1 Climate change impact, risk and opportunity:

- The SSP5 8.5 scenario, a climate change scenario which assumes a fossil-intensive development path resulting in high GHG emissions and serves as a very high–emissions stress test applied across 2030, 2040, and 2050;
- The SSP1-2.6 scenario, a climate action scenario that emphasizes clean energy technologies and the preservation of the natural environment, resulting in a lower-emissions pathway, complemented by the IEA Net-Zero Emissions (NZE) by 2050 scenario which serves as a benchmark for the energy sector aligned with a 1.5°C global temperature increase.

Through its strategy process the Company tests the resilience of its portfolio and business model against each of these scenarios. Financial and non-financial information are aligned in order to ensure that the financial impact of climate related risks is identified. The Company assessed the physical and transitional risks disclosed in section 3.2.1 Climate change impact, risk and opportunity from a consolidated financial statement perspective. Based on the reasonable and supportable information available to date and the outcome of risk assessments, the Company did not identify any circumstances which had an impact on impairment of non-financial assets, provisions nor contingent liabilities and assets in the 2025 consolidated financial statements.

Although climate-related risks are key drivers of the Company strategy, budgeting exercise, capital allocation and prospects selection, the Company did not experience any significant impact on the financial statements of the reporting period.

The identified risks will however remain key points of attention, namely in the areas of impairment testing, estimation of remaining useful life, expected credit losses and provisions for future periods.

Other risks

With respect to controlling political risk, the Company has a policy of thoroughly reviewing risks associated with contracts, whether Turnkey or long-term leases. Where political risk cover is deemed necessary and available in the market, insurance is obtained.

4.3.28 LIST OF GROUP COMPANIES

In accordance with legal requirements, a list of the Company's entities that are included in the consolidated financial statements of SBM Offshore N.V. has been deposited at the Chamber of Commerce in Amsterdam.
