The Company generated strong Directional operating cash flows mainly as a result of the cash flow from the fleet under operations and the proceeds received from FPSO *Liza Unity* sale.

Cash generated from the strong Directional operating cash flows, drawdowns on project financings, the RCF, the Revolving Credit Facility for MPF hull financing, the settlements of interest rate swaps related to the financing of FPSO *Almirante Tamandaré* and FPSO *Alexandre de Gusmão* of US\$154 million, the US\$125 million funding loan agreement received from CMFL in relation to FPSO *Cidade de Ilhabela*, together with some of the Company's existing cash was primarily used to:

- Invest in the five FPSOs under construction over the period, and some initial scope for the FPSO for the Whiptail development project and the two Fast4Ward® new build multi-purpose hulls.
- Repayment of the project loan following the FPSO *Liza Unity* sale;
- Pay dividends to shareholders; and
- Service the Company's non-recourse debt and interest in accordance with the respective repayment schedules.

As a result, Directional cash and cash equivalents decreased from US\$615 million at year-end 2022 to US\$563 million at year-end 2023.
